Functional Responsibility: Serves as an Industry Expert, Executive Coach, Mentor, and Educator. Responsibilities include long-range planning and program performance. Utilizes industry expertise gained through direct industry experience to assess the operational and functional capabilities of an organization. Works with senior managers and executives to provide industry vision and strategic direction. Guides the determination of information technology inadequacies and/or deficiencies that affect the organization's ability to support/meet its goals. Generates business strategies for enhanced IT operations in a cross-functional area mode throughout the organization.

Minimum/General Experience: Perform consulting, facilitation, mentoring, training, design, architecture, and development. Design and build methodology for industry and government agencies. Experience in aligning multiple architecture frameworks and methodological approaches, including agile, TOGAF, Zachman, process management, Lean Six Sigma, business modeling, case management, event modeling, and systems transformation. Experience managing project teams, managers who manage project teams, in-house reengineering teams. Possess industry-recognized certifications such as Business Architect certification. Possess strong analytical and interpersonal communication skills. Possess excellent writing ability. Possess extensive experience as an orator, serving as keynote, panelist, speaker, and co-chair at conferences and events.

Education: Master's Degree or Equivalent in Information Sciences or Information Technology.

SIN 132-100 ANCILLARY SUPPLIES AND/OR SERVICES

Ancillary supplies and/or services are supplies and services which are not within the scope of any other SIN on this schedule. These supplies and/or services may only be ordered in conjunction with or in support of supplies and/or services purchased under another SIN in this schedule to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule and is limited to information technology (IT) products and/or services.

Special Instructions: The work performed under this SIN shall be associated with existing SINs that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered, but be an integral part of the solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies and/or services purchased under another SIN in this schedule. Offerors may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SINs under this schedule.

Note: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

TERMS AND CONDITIONS APPLICABLE TO ANCILLARY SUPPLIES AND /OR SERVICES (SPECIAL ITEM NUMBER 132-100)

Note: Commercially available products under this solicitation may be covered by the Energy Star or Electronic Product Environmental Assessment Tool (EPEAT) programs. For applicable products, offerors are encouraged to offer Energy Star-qualified products and EPEAT-registered products, at the Bronze level or higher. If offerors opt to offer Energy Star or Electronic Product Environmental Assessment Tool (EPEAT) products then they shall identify by model which products offered are Energy Star-qualified and EPEAT-registered, broken out by registration level of bronze, silver, or gold. Visit the Green Procurement Compilation, www.sftool.gov/greenprocurement for a complete list of products covered by these programs.
